

Alees International

Alees International

deals in construction with material and also has line of heavy machinery for rent and spare parts for sale.

Mission

Our Mission is to offer value added services with promising quality & safety along with more opportunities to create and strengthen long term relationship with our clients.

Our Vision

In this era of infrastructure development, where technology encompass our daily life, we will be a leading construction equipment supplier, infrastructure development innovators and Earth/Civil works contractors in the field of oil, gas, petrochemical, telecom; and to be most admired company in the industry as seen by our stakeholders.

Organization

We firmly believe that 'none of us is as smart as all of us' and we consider every one of us a leader in his own right, who knows how to follow senior leaders while keeping his thinking faculties alive.

Quality Policy Statement

ALEES is committed to provide products and services according to customer requirements. We believe that we can achieve this by continually improving our quality management system through consistent attainment of our quality objectives and regulatory requirements.
